Waterworks Extension.

To the Editor of the Evening DISPATCH. In answer to the question asked so frequently, within the last few days by many of Provo's interested and anxious citizens as to whether it is an assured and settled fact that the city water will be extended to the ceme-tery, I am prepared to state today that it will be, and unless some unforeseen difficulty shall arise, I feel safe in stat ing that inside of thirty days from this date the water will be in the cemetery. The earnest manner in which the city council has taken hold of this worthy enterprise, assisted and supported by t e citizens, is certainly commendable. To much cannot be said in praise of all those who have assisted with their m ney and influence for the consum-mation of this object. But comparatively little opposition has been met in the council; this is equally true as to the citizens. We also feet very grateful to the press of the city for its able and earnest assistance in this matter, also to the indefaugable and untiring efierts of the superintendent of water-works, Mr. Eph. Homer. I desire to further state that all who leel so dis-posed (I trust that this means all who have an interest in the cemetery) can with a degree of certainty, i r the first time in the history of the cemetery, plant out shrubbery and flowers, lawn grass, etc., with an assurance that drouth will not blight your efforts.

In conclusion an earnest appeal is further made for the continuance of your unceasing effort in assisting to swell the amount of subscriptin list until sufficient means is secured to complete the work. have an interest in the cemetery) can complete the work.

Boston's Latest Fad. A fad in the shape of "fairy stones" has come to light in Boston. The stone seems to be a bit of petrified earth, with what looks like a cross marked upon it, and is said to come from St. Patrick, in Virginia, where there is a mountain full of them, supposed to have been planted there by the fairies as far back as the days of the crucifixion. Believers in such things or folks who love to pick up fads are having those fairy stones mounted as pins, watch charms, etc.-Boston Letter.
